## To Whom It May Concern

For the past 6 years PT Tekenomiks Indonesia has conducted extensive used oil and fuel analysis on our fleet of heavy mining equipment.

During this period they have analyzed over 100.000 samples within our specified turn-around time and have expedited this for urgent samples.

PT Tekenomiks Indonesia are at all times available to discuss and explain their analysis and have assisted in other lubrication related matters.

PT Tekenomiks Indonesia service and support is excellent and we have no hesitation in recommending them.

Yours sincerely,

Paul Ludlow

General Manager Plant
