Press Release

Bushfire Appeal Donations

Dear Friends, Customers and Suppliers,
Whilst I want to wish you all the very best for 2020, it is at a very sad time for many Australians, their families and wildlife.

Human lives have been lost; homes, lifestyles and businesses destroyed; and an estimated 500,000 native animals have been killed by savage and ongoing bushfires in a number of Australian states.

Life for many will never be the same.

Techenomics would like to do its part by making a modest direct donation to the bushfire appeal and is offering three oil analysis packages plus a Liquid Tungsten kit free to each and every one of you who donate at least \$25 to the bushfire appeal. Please join us to ease the suffering of so many just a little.

Please note details for donating below and communicate with Siti (siti@techenomics.com), Cynthia (cynthia@techenomics.com) or Jason (jason.davis@techenomics.com) to arrange for your oil analyses.
